

YOUR ULTRACEUTICALS PEEL APPOINTMENT

We are so excited to see you for your upcoming Ultraceuticals Peel appointment! Review the list of contraindications below and if any of them apply to you, please reach out to the salon, as we may not be able to provide the service for you at this time.

You may not be able to receive this service if:

You have psoriasis or eczema.

You have recently had facial surgery.

You have any open wounds (including acne / breakouts).

You have cold sores.

You have used Accutane and it has been less than 6 months since you stopped using that medication.

You have used retinol or Vitamin A products within 2 days of your appointment.

You have allergies to peel ingredients.

You have active rosacea.

You have cancer or are undergoing radiation therapy.

You are pregnant or breast feeding (we will refrain from using the A-zyme peel).

Your skin is sunburnt.

Considerations:

Seek medical advice before scheduling for diabeters or autonomies immues disease, as healing from the peel may be delayed. Heavy smokers may also experience delayed healing.

As long as none of these apply to you, we look forward to seeing you for your upcoming dermaplane facial. Please remember to come with clean, makeup-free skin.

We look forward to seeing or hearing from you soon!
